Please join us for a 1-hour presentation for adults with middle or high school-aged youth. The speaker from NAMI will share what they have learned about mental illness -- the warning signs, facts, and statistics, as well as how to talk with your child and how to work with school staff. At this time, we are planning for a virtual presentation, though we hope to be able to change this to an in-person event. For now, please save the date and time. We'll announce the format and provide a link and location as soon as it is appropriate.
